Subject: Inventory Discard/Supplemental Testing Notification

LifeSouth has changed the forms related to notifying you of blood components involved in lookback. Previously, there were two forms – the *Lookback Notification* and the *Lookback/Discard Notification* form. Now there is one combined form titled the *Inventory Discard/Supplemental Testing Notification*, which will contain both the initial test results that caused the lookback as well as supplemental test results for the reactive donor if applicable. For supplemental test results, you will receive a second notice with a matching Case File Number (located at the top of the form).

Please review and share with appropriate staff at your facility. An example of this form has also been included on **HIM.2.4 (Respond to Lookback Investigations)**.

The form is titled "Inventory Discard/Supplemental Testing Notification" and includes a barcode, case file number, recipient information, a table of components, and a table for supplemental testing results.

Case File Number: W1151203104486

To: Childrens Hospital Date notification sent: 03/09/2021

Our records indicate that the blood component(s) below were shipped to your facility. All of the components were NONREACTIVE/NEGATIVE for viral marker testing at the time of distribution. However, on a subsequent donation the donor tested repeatedly reactive for the following test(s):

Test Name
HBsAg

Component

Unit Number / DIN	Product Code	Exp. Date	Date Shipped	Transaction Number	Box #	BOL #
W11512025323B	E0701V00	10/15/2021	11/01/2020	20041-000717	001	n/a

Confirmation/Supplemental Testing

Additional results pending (this form will be resent with supplemental results upon completion)  
 No further testing

Name of Test	Test Results	Date Tested
HBsAg Neutralization	Reactive	03/09/2021

Please acknowledge receipt of this information by signing and returning form to LifeSouth by FAX at 352-334-7782.
