Components Distributed to Healthcare Providers	
Florida	157,870
Alabama	149,679
Georgia	31,751
Total	339,300

Components Distributed to Non-Healthcare Providers	
All Others	134,237
Total	134,237

Components Distributed to Research	
Florida	14,675
Alabama	(7)
Georgia	2,428
Total	17,096

More than 99 percent of components distributed to health care providers are to hospitals.

Components provided to non-healthcare providers are units of plasma for fractionation, including Albumin, IVIG, Factor VIII, Factor IX and Alpha 1.

Most components distributed to research are to major research universities.
