

SBB Applicant Experience Documentation

LifeSouth Community Blood Centers

Applicant:

Please indicate how often you perform the following procedures (daily, weekly or monthly) by checking the applicable box. If it has been more than a year since a procedure was performed, list the last year it was performed (LYP). Leave blank any procedures you have not performed. Do not include school or workshop experience.

Procedure	Daily	Weekly	Monthly	LYP
ABO and Rh Typing				
by tube				
by gel				
by solid phase				
Antibody screening				
Red cell phenotyping				
Direct antiglobulin testing				
Compatibility testing				
Resolution of ABO discrepancies				
Single antibody identification				
Multiple antibody identification				
Enzyme panels				
DTT/CDP treatment of cells				
Neutralization techniques				
Autoadsorptions				
Differential or alloadsorptions				
Elutions, temperature (Lui Freeze or Heat)				
Elutions, pH (ELU kit)				
Cell separation (hematocrit or hypotonic saline)				
Fetomaternal hemorrhage screen				
Kleihauer-Betke stain				
Donor blood collection				
Infectious disease testing				

Procedure	Daily	Weekly	Monthly	LYP
Component preparation for storage (prepare FFP, platelets, cryoprecipitate)				
Component preparation for administration (pool platelets, thaw, aliquot)				
HLA testing				
Molecular red cell genotyping				
Quality assurance activities (audits, validation, root cause)				
SOP writing				
Testing record review				
Training/Educational activities				
Investigation of transfusion reactions				
Issue blood or components				
Other (specify):
