Components Distributed to Healthcare Providers	
Florida	195,292
Alabama	158,110
Georgia	63,230
Total	416,632

Components Distributed to Non-Healthcare Providers	
Florida	16,018
Georgia	14,400
All Others	113,642
Total	144,060

Components Distributed to Research	
Florida	1,472
Alabama	21
Georgia	107
Total	1,600

More than 99 percent of components distributed to health care providers are to hospitals.

Components provided to non-healthcare providers are units of plasma for fractionation, including Albumin, IVIG, Factor VIII, Factor IX and Alpha 1.

Most components distributed to research are to major research universities.
